# OUR WORK

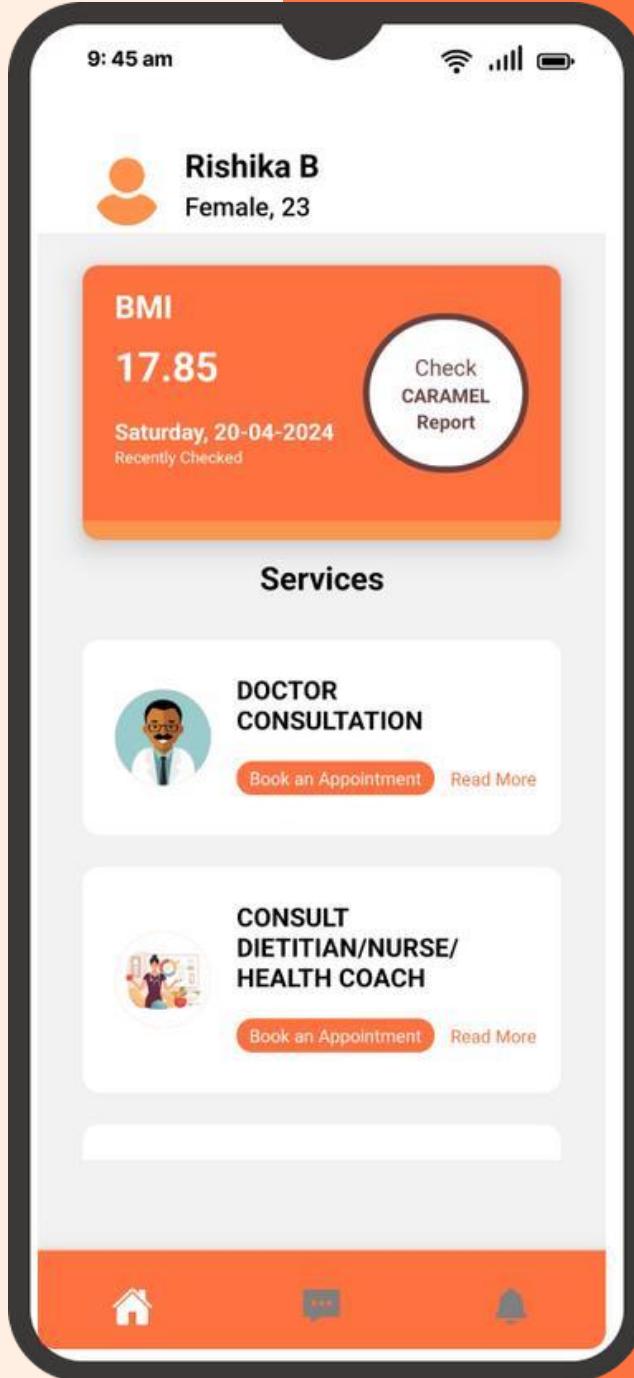

Created an interactive dashboard for real-time visualization, analysis, and management of road survey data, AI insights, maintenance alerts, and infrastructure status. The dashboard includes secure user access, role-based permissions, collaboration tools, and communication features to improve workflow efficiency and team collaboration in road infrastructure management.

Developed an App on top of RobotOS, with an AIModel. This is a Reception Robo which enhances the customer experience, reducing the human work staff. The application is linked to the client database, responding to customer inquiries and sending real-time notifications.

10K+  
Downloads

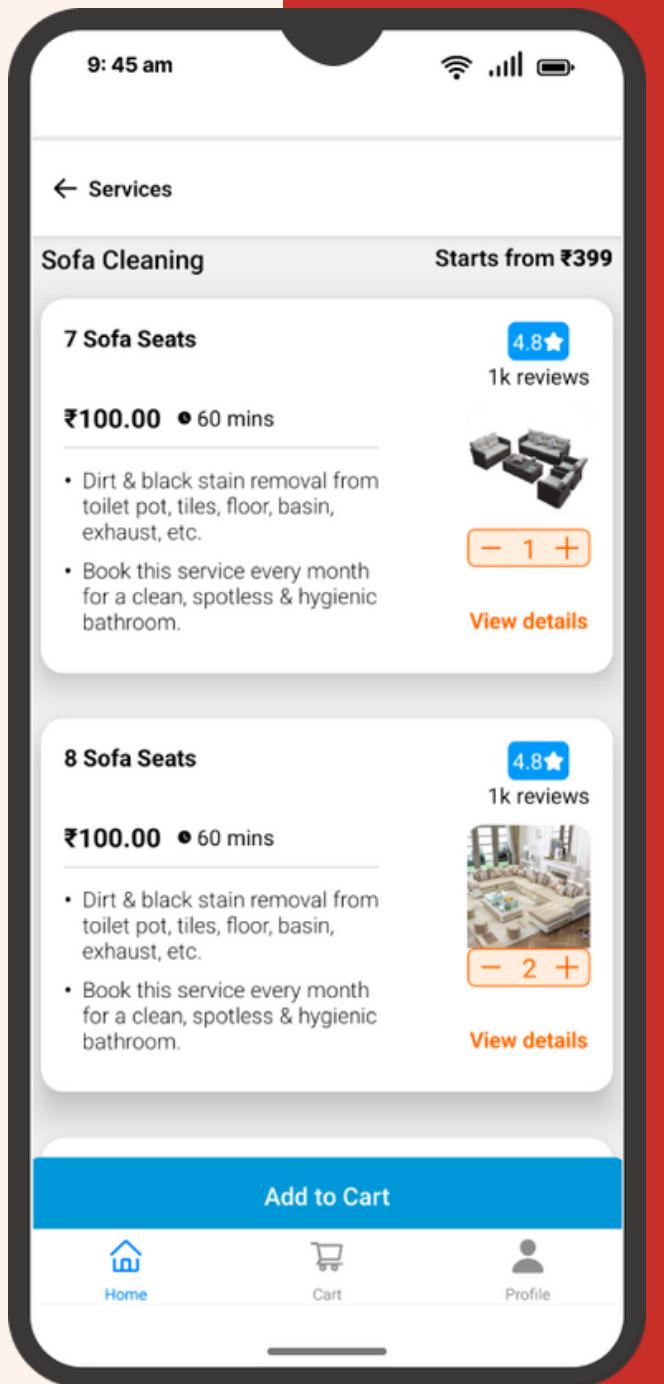

F8T effectively enables professionals to focus on their well-being and enhance performance, promoting a flourishing workforce and a highly productive, engaged organization. This platform creates a mutually beneficial situation, leading towards a healthier, happier, and more prosperous future.

# SPIFFY

The app is launched on Playstore working in tier1 & tier2 cities with affordable prices.

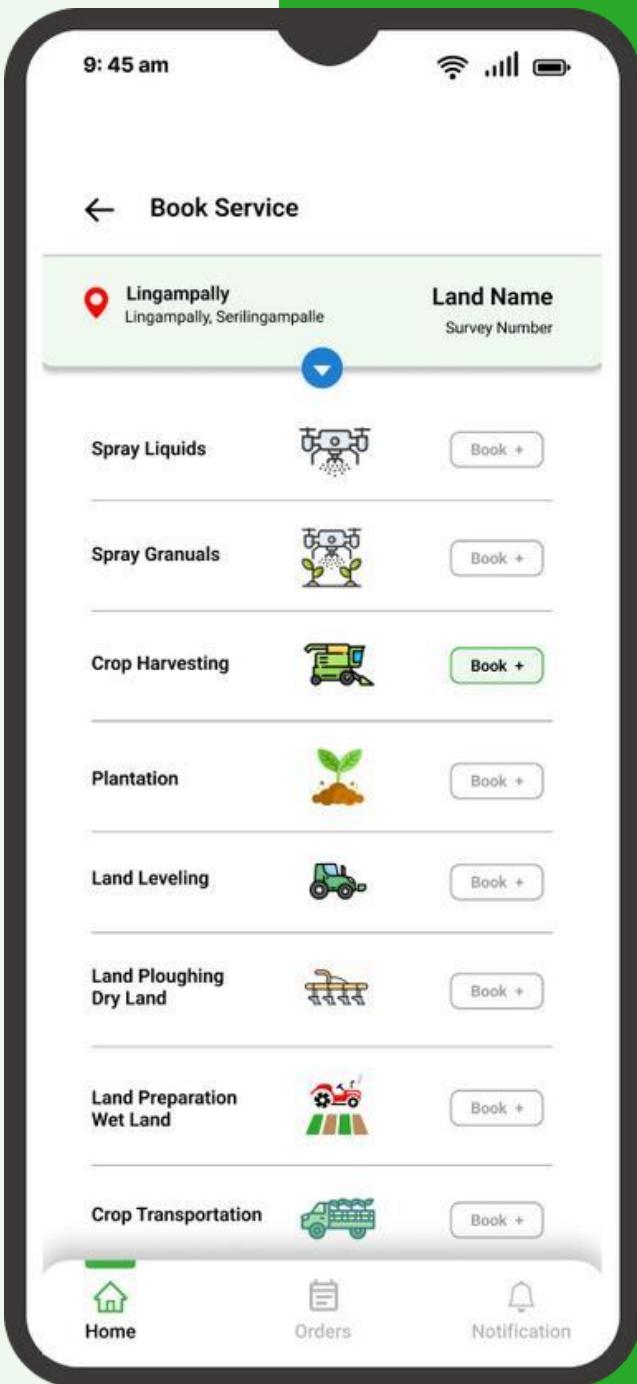

Users can schedule appointments easily with trusted service providers through a user-friendly interface. Service providers can manage bookings and communicate with clients using the app. Admins have full control over services, while coordinators efficiently assign providers to users for a smooth service experience.

# Polam Pani

Launching Soon on Play Store!!

The revolutionary app connecting farmers with essential agricultural services at their fingertips. Farmers can now seamlessly book a range of services vital for their crops' success, from harvesting to ploughing, and even pesticide spraying.

## What Our Clients Say:

"Weiter Edge has developed an exceptional application for our house cleaning services at Spiffy. The app is intuitive, reliable, and has greatly enhanced our service delivery. Their ability to understand our needs and deliver a top-notch product is commendable. We are thrilled with the results."

—Naveen, SPIFFY INDIA

"The Digidiode WooCommerce website by Weiter Edge exceeds expectations, offering a user-friendly platform for buying electronic components, demonstrating e-commerce expertise and dedication to quality and customer satisfaction with unlimited modifications."

-Dharani, TACHYON AUTOMATIONS

"Weiter Edge's development of our F8T FIT app, complete with AI integration, has been outstanding. Their innovative solutions and ability to address complex medical calculations have made our app an invaluable tool for our users. Their commitment to excellence is evident in every aspect of their work."

-Bhageerath, F8T.FIT

"Their expertise and attention to detail have significantly improved our ability to manage and support our students' wellness. We are incredibly grateful for their professional approach and seamless integration of the system."

— Bharath, DIATATO

"I was truly impressed by their hardworking nature and commitment. What really stood out was their willingness to learn and implement new ideas. Weiter Edge is always open to feedback and eager to adapt their approach to ensure the best possible outcome."

— Gaurav, CYRRUP SOLUTIONS

"The Polam Pani application, developed by Weiter Edge, is user-friendly and has made booking farming services incredibly convenient. Their expertise and commitment to supporting agriculture through technology are truly impressive. We couldn't be happier with their work."

— Nagesh, GREENQS
